 - Created a modern and flexible music app interface using Tailwind CSS.
 - Showed skills in front-end development and UI/UX design.
 - Designed for easy user interaction and smooth navigation. - Key features: Tailwind CSS, modern design, responsive layout, user-friendly interface.

ACHIEVEMENTS

- I'm currently working as a freelancer, creating responsive and client-focused web applications using modern technologies. I've solved over 150 DSA problems on platforms like GeeksforGeeks and LeetCode, further enhancing my problem-solving and coding skills. My experience has helped me grow both technically and professionally.
